High School AP Science Teacher

About Us

At Academic Leadership Charter School, we are committed to providing a dynamic and engaging learning environment. Our mission is to develop students into lifelong learners and future leaders who are equipped with critical thinking, problem-solving, and analytical skills. We strive to foster curiosity, scientific inquiry, and a passion for lifelong learning.

Position Overview

We are seeking a dedicated and enthusiastic **High School Advanced Placement (AP) Science Teacher** to join our team. The ideal candidate will have a strong background in science education, experience teaching or preparing students for Advanced Placement coursework, and a commitment to academic excellence and student success.

Key Responsibilities

- Develop and implement engaging, rigorous lesson plans aligned with the New York State Next Generation Science Standards and the College Board AP curriculum and course requirements.
- Teach Advanced Placement science courses, such as AP Biology, AP Chemistry, AP Physics, or AP Environmental Science, based on school needs and the candidate's qualifications.
- Prepare students for AP examinations through targeted instruction, practice assessments, and review sessions.
- Design and facilitate hands-on laboratory experiments, scientific investigations, and inquiry-based learning experiences.
- Assess student progress regularly and provide timely, constructive feedback to support academic growth.
- Differentiate instruction to meet the diverse learning needs of students while maintaining high academic expectations.

Qualifications

- Bachelor's degree in biology, Chemistry, Physics, or Environmental Science; a Master's degree is preferred.
- Strong content knowledge in the relevant science discipline and an understanding of college-level science expectations.

- Experience teaching AP science courses preferred; familiarity with College Board AP course frameworks and exam requirements is highly desirable.
- Strong classroom management, communication, and interpersonal skills.
- Demonstrated ability to differentiate instruction and support students with diverse academic needs.

Benefits

- Competitive salary, 401k, 95% coverage for medical, vision, and dental insurance.
- Supportive and collaborative work environment.
